SEA STAR
THE DIARIES OF ANNE BONNY

For those of you new to Sea Star,
Attorney Noel Knight created
an action adventure world
inspired by the infamous pirate
Anne Bonny
of South Carolina.

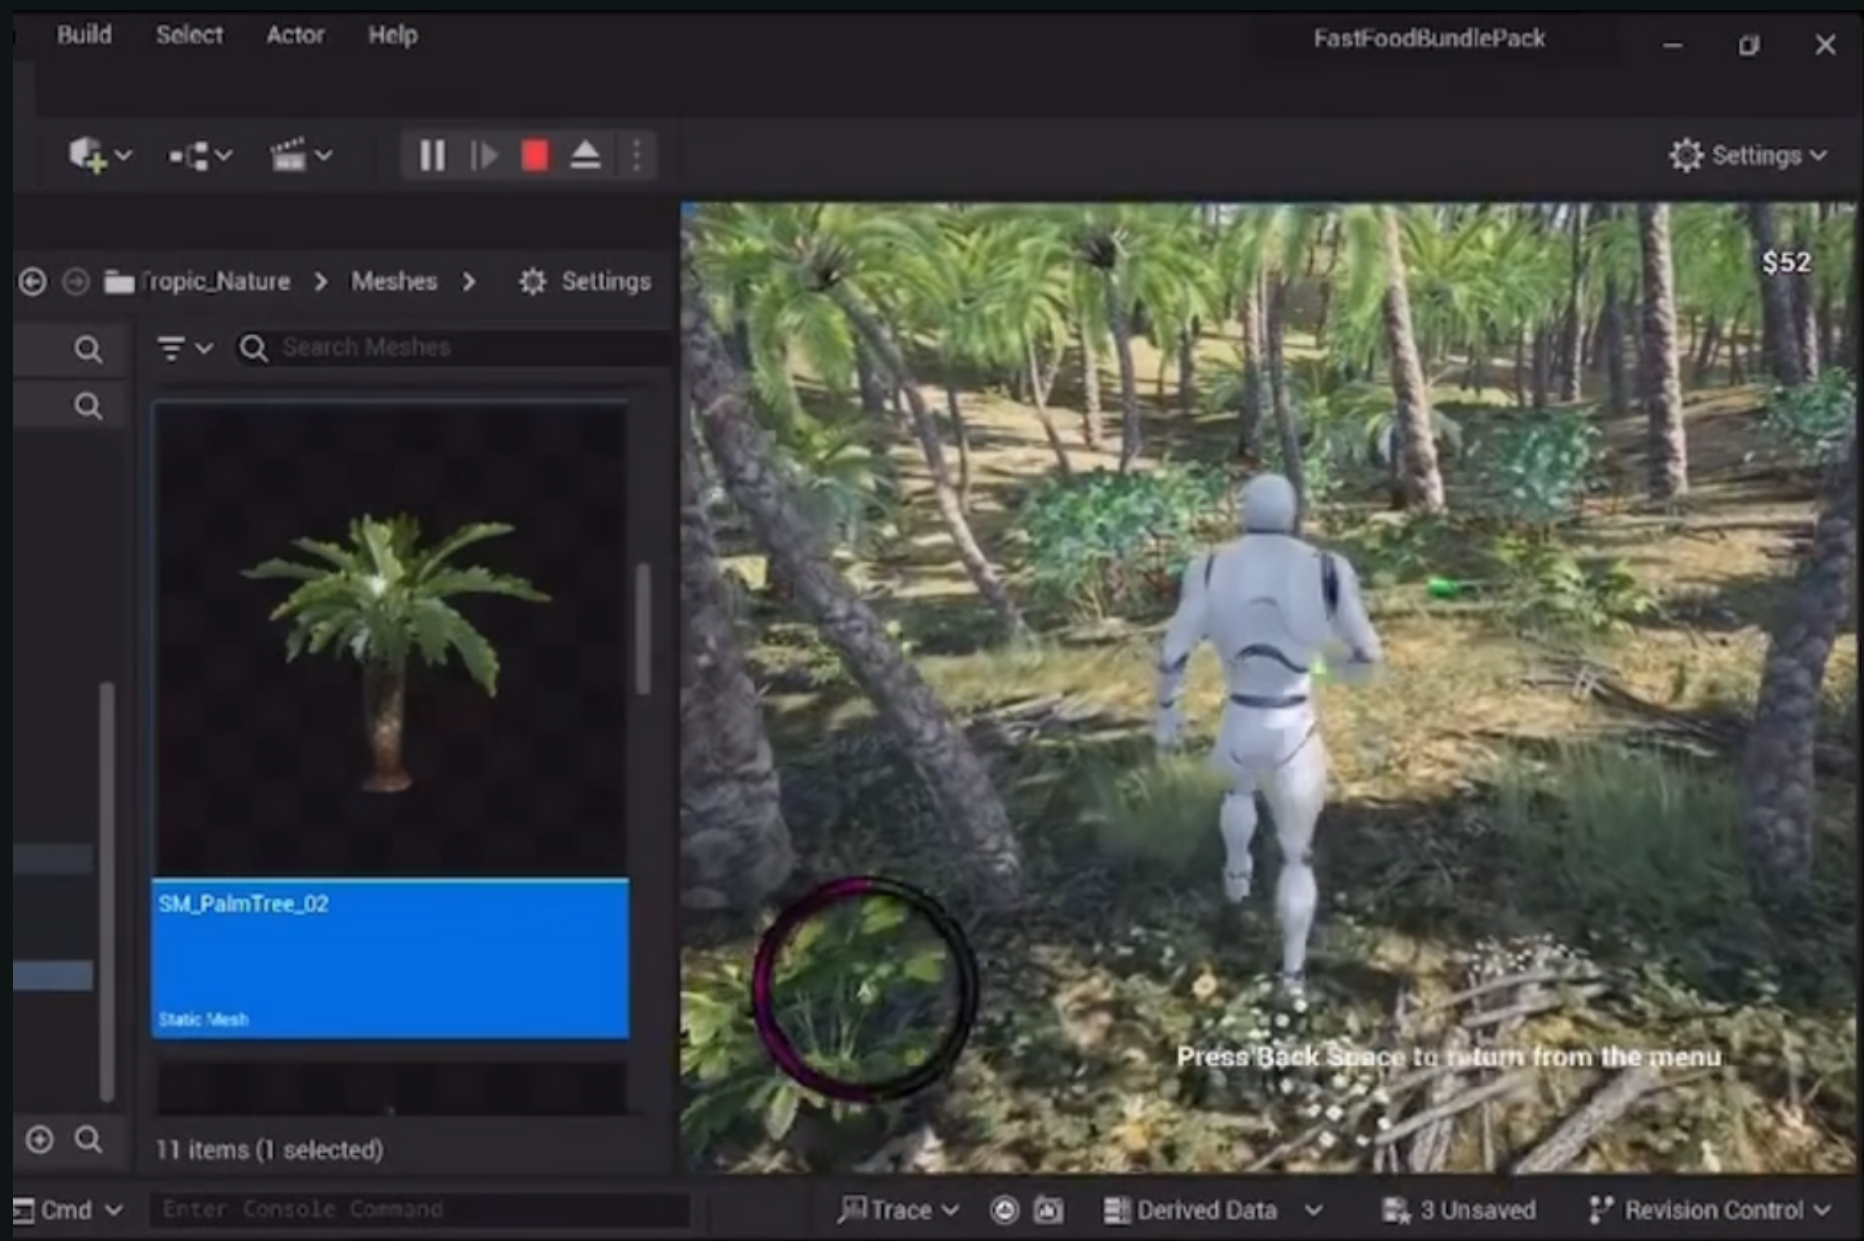

Logline: Anne Bonny, the direct descendant of the infamous American pirate Anne Bonny, must choose to take on one of the world's most notorious crime lords to save both the United States and the man she loves from atomic destruction.

The plot of Sea Star revolves around a trade agreement between the US, Mexico, and Canada and atomic devices taken from the former Soviet Union. Villains in both Canada and Mexico (with links to both those countries' governments but certainly representing neither) wish to use those devices against the United States.

Below is a purchase link for family, friends, and fans. Please check out our website at www.seastarannebonny.com where you can find out more info about the creation of Sea Star and the vision for its future.
